As you know," he continued, "he has never been tested in a good race." When the drivers entered the office of the clerk of the scales to weigh, they met with an enthusiastic reception from the vast throng. St. Julien's driver wore a black and the driver of Jay-Eye-See a

purple jacket. FIRST HEAT. The first heat started at 3:45 p. m.
St. Julien drew the pole, and at the third attempt they got the word, with St. Julien half a length ahead. Hickok kept St. Julien under a pull, and in rounding the turn Jay-Eye-See was at St. Julien's wheel. After getting fairly under way, Jay-Eye-See began to draw upon St. Julien, and abreast of the quarter pole St. Julien led by a quarter of a length. The backs of both animals were now as level as a billiard table. were now as level as a billiard table, and they were moving like pieces of machinery. Approaching the half-mile post Jay-Eye-See drew up even with his antagonist. At the hill, fifty yards his antagonist. At the hill, fifty yards from the three-quarter post, Jay-Eye-See broke, only for two strides, and he immediately settled down to work again, and rapidly overhauled St. Julien. The excitement now reached a white heat, and Bonner had to call on the crowd for silence. On entering the homestretch Jay-Eye-See was at St. Julien's wheel, but Hickock carried him a little too far out into the deep mud, at the same time keeping St. Julien on the hard track. The struggle down the straight was grand, Jay-Eye-See gaining at every stride. Fifty yards from the wire St. Julien led by half a length, but was faltering and broke about thirty feet from the wire. He passed the wire in a run, leading by a head, but the judges, in consequence of St. Julien's passing over the score running, gave the heat to Jay-Eye-See. The time by quarters was, first quarter, 33 seconds; half mile, 1.055%; three-quarters, 1.42½; mile, 2.20½. The decision gave general satisfaction. The betting was now \$100 to out into the deep mud, at the same time keeping St. Julien on the hard track. consequence of St. Julien's passing over the score running, gave the heat to Jay-Eye-See. The time by quarters was, first quarter, 33 seconds; half mile, 1.05%; three-quarters, 1.42%; mile, 2.20%. The decision gave general satisfaction. The betting was now \$100 to \$90 in favor of St. Julien.

For the second heat, the horses had cooled out nicely. They were rung up at 4:15 p. m. Jay-Eye-See took the pole on account of winning the preceding heat. At starting St. Julien led a length. Bithers immediately took a pull on Jay-Eye-See and waited until he got straightened out for the quarter post before letting him out. On reaching the quarter post St. Julien led by two open lengths, but soon after passing the post Jay-Eye-See began to close the gap and trotted so rapidly that he reached St. Julien's withers abreast the half mile post. St. Julien seemed to be in trouble, but was trotting in good form, nevertheless. The flyers then made for the hill. St. Julien seemed to take to the uphill work more kindly, and three furlongs from home the pair were trotting on even terms. Jay-Eye-See was now forcing the pace, and St. Julien's driver took him in hand preparatory to a hard finish. Coming into the straight. Jay-Eye-See led three parts of a length. The finish was terrific. It was simply wonderful how animals could keep their feet amidst the yelling and hooting of the immense crowd. Midway down the straight, St. Julien made a grand effort, under punishment, to head his antagonits, but Jay-Eye-See was unapproachable, and appeared the heaf by half a least. SECOND HEAT.

The horses were again sent away the first effort. This time Jay-Eye-See led by half a length on passing the score. The little horse trotted in capital style and straightened for the quarter post, Berlin, Oct. 2,—All the newspapers express great indignation at the insults to Alfonso in Paris.

NAYS SURE OF CROP.

The soil is of varied character, sandy loam, brown and red loam, and red gravelly loam, with h. state of clay underlying the whole country. Summer fallowing, or twice plowing, insures r larke crop and a certain one in the dryest years.

There is comparatively no waste land on the farm, and no trace of alkali. White and live onks are scattered over the tract. Every inch of land is tillable. There is no failure of crop in this section, and in 1877, a dry year throughout the State, a fine, tull crop was grown on this ranch. Six inches of rain will insure crop. No rust troubles the grain.

An underlying strata of pure water is found.

Comprising 800 acres of land, within 2 miles of WO DLAND 5.

THE COUNTY SEAT OF YOLO.

In Large Subdivisions. 17 to 50 Acres Each. The property is very well located. The soil is a deep alluvial, well adapted to Vineyard, own the state, a fine, tull crop was grown on this ranch. Six inches of rain will insure crop. No rust troubles the grain.

An underlying strata of pure water is found.

of Crops.

The land is about 300 feet above sea level, and fruit trees and vines do not suffer from frost.

Several parcels in this ranch are fenced and have other improvements, as will be seen by reference to the "Field Notes" and Map inside this Catalogue.

Land is now renting for cash rent from \$1.50 for virgin soil to \$1 per acre, and for one-third of the crop for the season.

The average production is 20 to 30 bushels of wheat per acre.

We confidently invite the attention of Capitalists, Farmers and all buyers to this attractive offering of first class lands. The easy payments, the low rate of interest and taxes (the owners paying the mortgage tax), its accessibility by railroad and tide water, its productiveness, its intrinsic value for certainty of producing, make this land valuable beyond all question.

This is a rare opportunity to secure a farm or make an investment that must rapidly enhance in value. No safer investment can be made than to secure property so favorably lotted to yislue, on very easy tera, so payment.

Parties going to Clements on the railroad riunning from Lodi to the Sierra Nevadas, will find ample arrangements for viewing the land. TERMS—One-fourth cash, balance in 3 years; interest on deferred payments at 7 per cent. per annum. No mortgage tax to be paid by the purchasers. A liberal discount will be made

Weather predictions on this coast are not nearly as reliable as in the Eastern States, because the temperature there is nearly the same over a very large area of country, while here our storms, as a rule, start in the far Northwest and travel slowly southward, passing through a temperature of perhaps 40 degrees at San Francisco and 60 degrees at San Francisco and 60 degrees in this city. As a result the storm is likely to spend nearly all its force at one or two points and prove far from being satisfactory at others.

EALTH restor shu li'e prolonged to suffering humsnity, by the most wonderful curative agents ever discovered. I invite the sick, no matter what their diseases may be, to call an investigate for themselves before abandoning all hope, for it will cost you nothing. I given encouragement unless there is a fair prospect of making a cure. I will endeavor to be canding any opinion, and reasonable in my charges. I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of or of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but whet I am, I refer to my diploma and the numerous recommendations in my possession, which will always be ready for inspection at my and convince my patients that I claim nothing but whet I am, I refer to my diploma and the numerous recommendations in my possess on, which will always be ready for inspection at my office. I HAVE NO ONE CURE-ALLI nor do I make a hobby of any one mode of treatment, use electricity or medicines or both, as cases may require. I find he cause of disease, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail. TO THE LADIES. To the ladies I would say: You, whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases so common to your sex. give me a call, for I CAN JURE YOU WITHOUT FAIL, and make your lives once again worth living for. And all consultations will be strictly private and confidential. YOUNG MEN. To those young men who are suffering from year to year, and whose vital powers have become impaired, and nervous system unstrung and broken down, and are suffering the horrors from the effects of youthful follies; COME AND SEE ME. I have a sure preventative of premature decay and early death. To those won from indiscretions have contracted private diseases and are desirous of being cured, come without fail, for I can guarantee you a speedy cure. Yesterday morning, at 10 o'clock, Justice Ling's courtroom was crowded with spectators, anxious to hear the Trains leave and are due to arrive at Los Angeles as follows: particulars of the most deliberate and aken place in Los Angeles. Promi-nent among them were railroad associates of the deceased, by whom he was highly appreciated and respected. They were also associates of the alleged principal in the bloody act, but whose utter worthlessness puts him beneath their notice. In fact, between the alleged assassin and the unfortunate Henry C. Amadon, there lay a great gulf, on one side of which was respectability and honor and on the other hoodlum-In charge of City Routes...A, O. Stevens, General Subscription Solicitor...
